

**SIMPLY THE  
EASIEST**  
STRIP ON THE MARKET

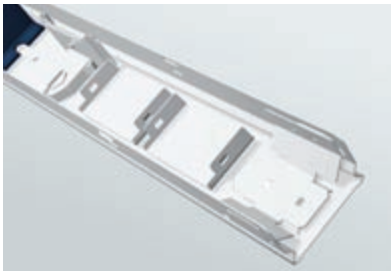

# From start to finish, it's simply the easiest strip ever developed.

## **ORGANIZE**

It's simple with "Smart Carton" design and integral parts

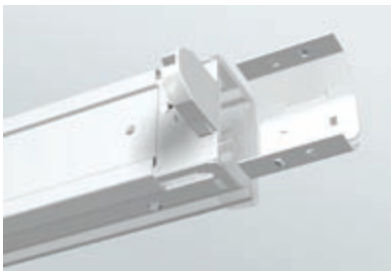

- Stage your job with our new easy-open carton – eliminates issues with glued edges and additional waste disposal
- Don't worry about loose parts spilling on the floor – all parts are shipped secure within the product

## **MINIMIZE**

Reduce installation time and hassles

- New patented "Roll & Lock" channel cover installs in a "snap"
- No quarter-turn fastener to drop or lose
- Three-point aligner locks in place for easy row mounting

## **FINALIZE**

Avoid call-backs on installation issues

- No issues with missing parts
- Straight rows ensure no "gaps"
- Eliminate pinched wires under channel cover

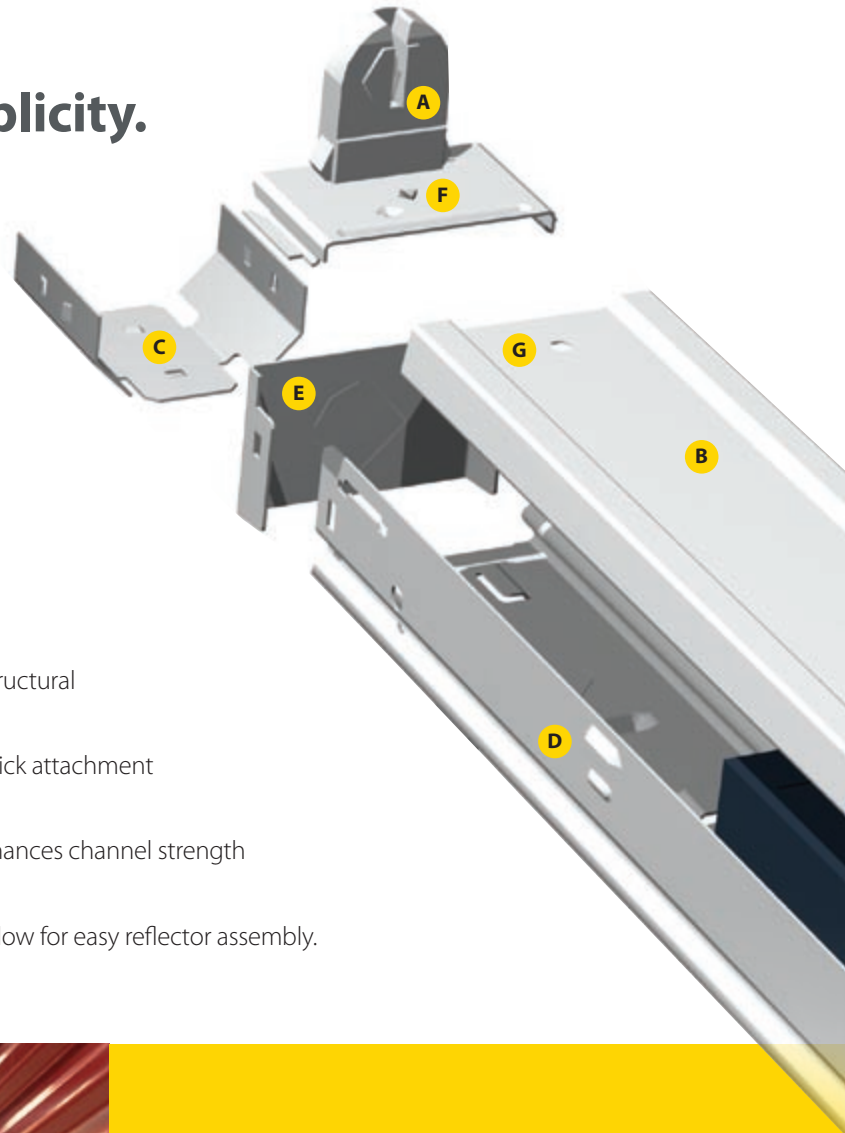

For more than 40 years,  
the striplight design has  
not improved ... until now.

# Designed for speed and simplicity.

## Smart, Fastener-less Component for Easy Installation

- A.** Pre-loaded sockets – improves speed of installation and reduces potential socket breakage.
- B.** Patented channel cover – secure fit design allows for easy access and quick attachment.
- C.** Patent-pending “Three Point” row aligner – locks channel together for straighter, faster row assembly without fasteners.

## Innovative Design

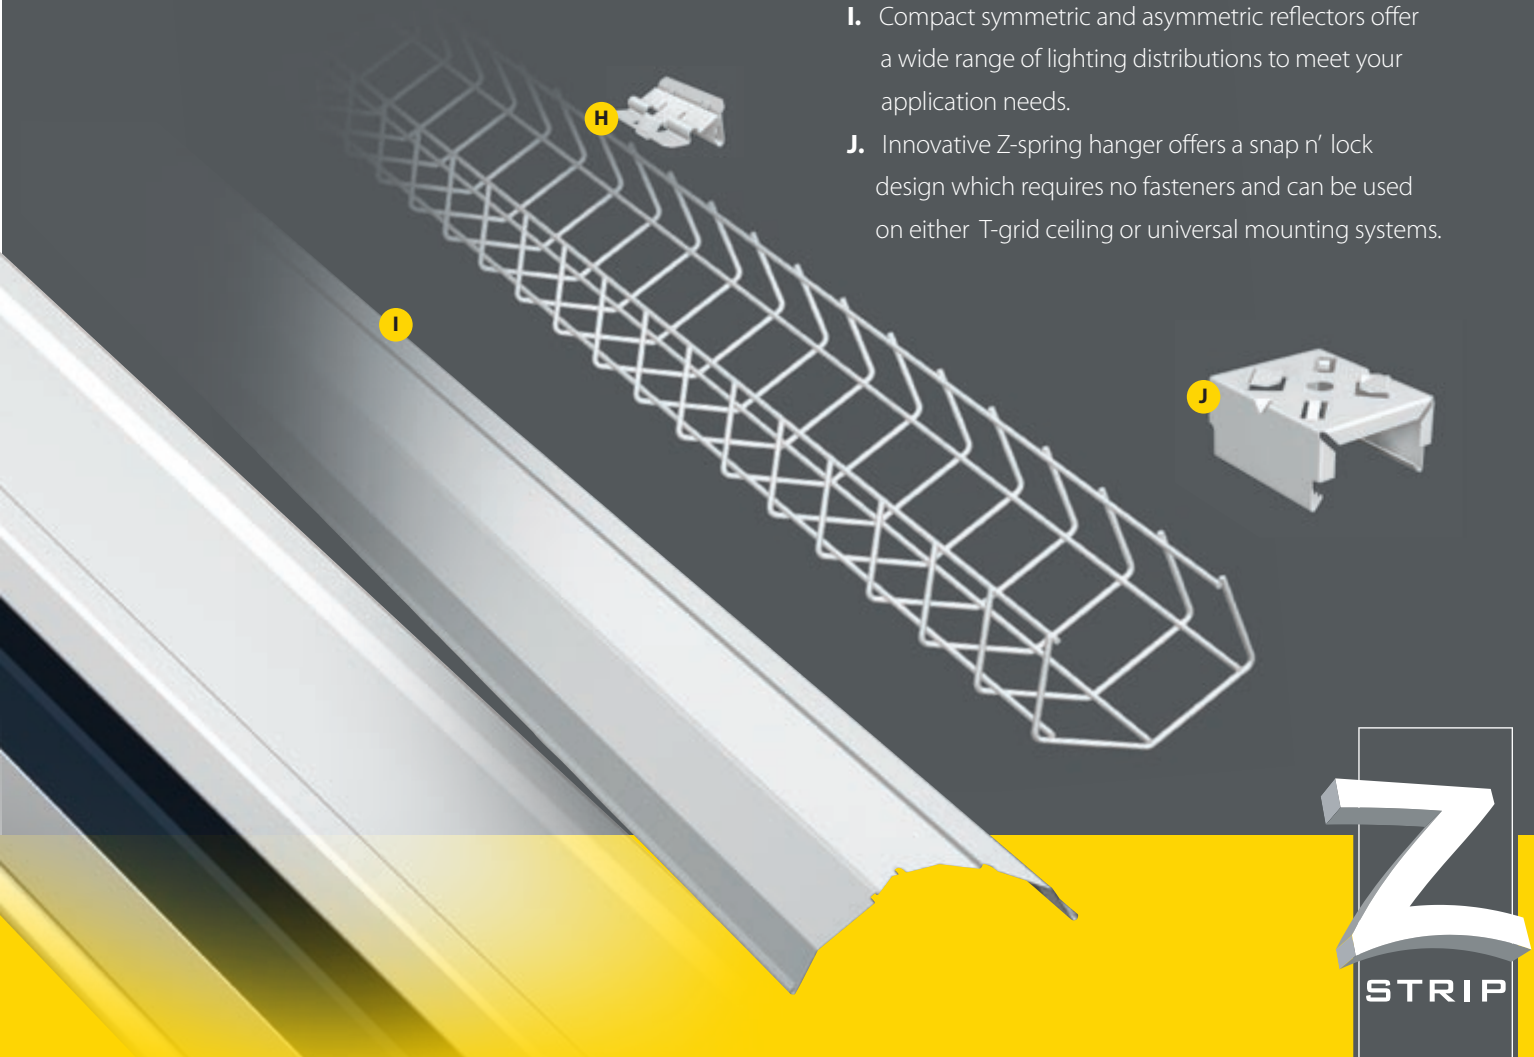

- D.** Compact “gripper back” channel offers structural strength and reduces shipping damage.
- E.** Easy “snap n’ lock” end plates allow for quick attachment and exact fit.
- F.** Improved “locking track” lamp holder enhances channel strength and lamp stability.
- G.** Fastener-less channel cover pilot holes allow for easy reflector assembly.

**LITHONIA LIGHTING  
REVOLUTIONIZES  
THE STRIPLIGHT**

## Accessories

- H. Uniquely designed wireguard profile provides sturdy basket construction along with easy access clips for effortless re-lamping.
- I. Compact symmetric and asymmetric reflectors offer a wide range of lighting distributions to meet your application needs.
- J. Innovative Z-spring hanger offers a snap n' lock design which requires no fasteners and can be used on either T-grid ceiling or universal mounting systems.

**The new innovative  
"Z" strip, designed  
for and driven by  
contractors' needs.**

**DESIGNED TO  
SIMPLIFY**

# With 12 primary configurations, the new compact Z strip can fit almost any application.
